Coin Magnifiers

Why so many different Bausch and Lomb coin magnifiers? The purpose of a magnifier is to enlarge the image so that its details may be seen more clearly. This is a function of the power of the magnifier. However, three other factors affect the performance of a magnifier and suitability for certain jobs: field of view, depth of field and focal length.

B&L General Purpose Magnifiers

B&L Packette 5x \$7.25

B&L Round 3" 2x with 4x inset..... \$12.50
